

# ERIC K. TSAI

# Game Programmer

[www.ericktsai.com](http://www.ericktsai.com) | [ericktsai@cmu.edu](mailto:ericktsai@cmu.edu) | 703-509-8875

## Objective

---

Seeking a full-time game programming position

## Skills

---

### LANGUAGES

C#  
Java  
C++  
PHP  
Ruby  
MySQL

### FRAMEWORKS

Unity3D  
CakePHP  
Ruby on Rails

### SOURCE CONTROL

Perforce  
Git  
Subversion  
Unity Asset Server

### COURSES

Game AI  
Game Design  
Algorithms  
Operating Systems  
Web & Mobile  
Software Design

## Education

---

**Carnegie Mellon University**, Entertainment Technology Center, Pittsburgh, PA  
Master of Entertainment Technology, 2016

**University of Virginia**, Charlottesville, VA  
B.S. Computer Science, 2014

## Employment

---

### Simcoach Games - Game Programming Intern (C#)

Summer 2015 ▪ Pittsburgh, PA

- ✓ Developed and published a mobile game on both Apple and Android app stores
- ✓ Utilized basic mathematics to detect various swiping gestures
- ✓ Programmed a TSV parser to allow for easy content modification
- ✓ Constantly collaborated with lead artist, game designer and producer

### Symantec - Research Programming Intern (C++)

Summer 2012 ▪ Herndon, VA

- ✓ Translated from paper to C++ my mentor's algorithm (calculating unknown network topologies)
- ✓ Parsed topology data in order to simulate it through Network Simulator 3 in C++
- ✓ Utilized linux tools (gnuplot, twopi) to graph all topologies and data gathered
- ✓ Allowed my mentor to test and visualize the limits of his algorithm for presentations

## Projects

---

### EA - Game Programmer (C#)

Fall 2015 ▪ Pittsburgh, PA

- ✓ Make children's stories interactive through voice recognition and animation
- ✓ Rapidly prototyping various degrees of interactions using Unity
- ✓ Using EA APIs to communicate between mobile devices and TV with JSON objects

### CaveMen - Game Programmer (C#)

Spring 2015 ▪ Pittsburgh, PA

- ✓ Developed different prototypes using Kinect and PS Move in Unity3D
- ✓ Explored gameplay in Cave, a three-walled projection space w/ a motion floor
- ✓ Created 2-3 game demos and menu system for a Cave tour experience

### Building Virtual Worlds - Game Programmer (C#)

Fall 2014 ▪ Pittsburgh, PA

- ✓ Developed on unique, interactive platforms like Oculus Rift, Kinect, PS Move
- ✓ Rapidly prototyped a Unity3D game every 2 weeks with teams of 5 in C#
- ✓ A world was invited to present at CREATE Festival, Maker's Faire, and ACM's CHIPlay

### LEAP Capstone - Software Developer (Ruby)

August 2013 to May 2014 ▪ Charlottesville, VA

- ✓ Created a database management system for the Local Energy Alliance Program, a local non-profit charity, with a team of six students
